Contents The book contains poems written in the voice of a child, expressing Plath's desire to give her children a sense of stability, while sharing little-known aspects of her life and work. Themes and style The poems in the collection, which are narrated by a child, deal with the everyday life of a child. In a way, they are also interviews with friends, servants, and doctors, but these are spoken with a child's simplicity. Sylvia's voice lends each poem a certain honesty and innocence. Reception In his review, Stephen Watson stated that "although there is more than a touch of sentimentality, the poems are fascinating, and the portraits of Plath's family and friends are detailed, lively and refreshing."
